all about us

Established in 1995 and formerly known as Classic Cooked Meats (exclusively supplying the food manufacturing sector), we saw the need to broaden our horizons moving to our current state of the art facility in 2008 with a new direction and company name - Country Cooked Meats Pty Ltd. Our name and branding may have changed but our focus and drive remains.

Country Cooked Meats prides itself on fast, friendly and efficient service, coupled with premium quality products at competitive pricing levels. This, along with a strong commitment to product innovation and a true understanding of the specific demands of the food manufacturing and foodservice environment, has led to extensive growth in recent times.

Our client base is made up of foodservice, airline caterers, food manufacturers and various retailers throughout Australia. We pride ourselves on working closely in partnership with all our customers who form the basis of our business.

High expectations from our customers and partners shape the future of Country Cooked Meats. Country Cooked Meats is a customer orientated supply partner. We provide our customers with the most suitable products within our range and offer the support of our professional and dedicated team.
